Docket No. R2012-8

PUBLIC REPRESENTATIVE MOTION FOR LATE ACCEPTANCE  
OF COMMENTS

(May 25, 2012)

The Public Representative moves for late acceptance of its "Comments of the Public Representative in Response to Order No.1330" filed one day out of time. While a member of the Public Representative team submitted the filing before the deadline established in order No. 1330, technicalities prevented the timely acceptance of the document. The Public Representative would also like to note that JP Klingenberg will be assisting as a technical analyst to the Public Representative in this docket.

The Public Representative believes that accepting this filing is in the public interest, does not prejudice any other participants, and does not unduly hamper the Commission's expeditious discharge of responsibilities under title 39. The Postal Service has requested an extension of the deadline for filing Reply Comments, and the Public Representative supports the Postal Service's request.

Respectfully Submitted,  
/s/ Malin Moench
